We offer delivery and installation of our products anywhere in the U.A.E.

We believe giving attention to detail and having years of experience ensures the client innovative, comfortable and practical interior décor solutions.

Curtains & Sheer

Custom Made Curtains: We have an experienced curtain production team to manufacture curtains and drapes in a wide range of sizes, styles and designs in traditional, contemporary and floral patterns. We also offer a large selection of poles, rails, fabric and curtain accessories to compliment your curtains.

Our experienced curtains team can arrange a time to visit you as per your suitable time to measure the area for curtains. In addition, they also bring a selection of curtain fabrics in various price ranges to match your budget. Once the design, size and fabric is agreed, we will commence with manufacture. Depending on the quantity this can take up to few days. Once completed, we will arrange a time to install the curtains at your location.

Roman Blinds

Roman Blinds: The roman blind systems are available in several varieties and are suitable for light, transparent fabrics up to heavier applications such as lined curtains. You can choose from cord, chain or electrically operated roman blind systems. The roman blinds can be stopped at any desired height. The Blinds can be removed from the system easily for cleaning.

For medium-weight to heavy-weight fabrics, always pulls up straight and smoothly.

Roller Blinds

Roller Blinds: One of the highest quality products with the most popular and intelligent designs for standard and blackout blinds.

High quality contract grade fabrics are used for our roller blinds. The fabric manufactured is well known in the world market. The fabrics have excellent safety factor and has been tested by general test certification accordance with all national and international standard, which provide the highest Safety & Quality for commercial as well as residential use. Roller Blinds are an effective, practical and modern solution to privacy and sunlight control and are the most commonly used type of blind. They can be manufactured from opaque yarns or partly translucent yarns which stop glare and subtly tint incoming light, making a good all round product for any room in the home, office, educational or healthcare establishment.

Control: Manually with standard mate chain or Motorized with remote / switch operated.

Wooden Blinds

Wooden Blinds bring the natural beauty of wood into your home and office. It creates perfect combination between a classic look and a modern approach to window treatment. Control: Manually it can be tilt opened and closed with standard control or Motorized with remote / switch operated.

Venetian Blinds

Venetian Blinds: Classic sun protection devices, Venetian blinds have many characteristics such as controlling the incidence of light, permitting views of the outside, ensuring privacy protection and above all possessing delicate hardware to give the room a light mood. In particular at PC workstations, glare-free illumination can be created that positively affects the motivation and performance of people.

With high-quality materials, new feels, current colors and sophisticated hardware, Venetian blinds combine design, form and function for the highest requirements in day-to-day working.

Cubicle Curtains (Hospital)

Cubical Tracks: These are high quality customized hospital cubical tracks made for hospital, clinics, care centers, physical therapy centers. Hospital infections are one of the leading causes of death, in today's world and various healthcare facilities are rising with different kinds of infections carried in infected textile. Now we can dramatically cut down this risk. Royal Shades Curtains LLC offers you the range of Anti-Microbial & flame Retardant Hospital Curtains.

Anti-Microbial Curtains Trevira CS Bio-Active reduces the probability of accidents in advance and prevents flames spreading. Fabrics with the Trevira CS trademark not only satisfy all relevant international fire protection standards, but they also meet the wishes of your patients for a pleasant stay. Patient privacy curtains take an important role to prevent infection in healthcare facilities.

Vertical Blinds

Vertical Blinds: These are simple and fabulous to look, these blinds are well suited for windows that are wider such that they can be operated by sliding from side to side. A custom made vertical window blind is often used to decorate the windows of offices as well as for home decor. Aluminum head rail options include exclusive Premium Vogue designs which combine with colour coordinated components to create a striking effect at your window. Manual chain driven operating system provides effortless control over light and privacy wherever required. Internal component parts use high-grade UV stabilized materials including self-lubricating plastics for smoothness of operation.

Upholstery (Furniture)

Our furniture upholstery services include: Re-upholstery, Furniture Restoration, Leather Upholstery, Reupholstering Chairs, Furniture Repairs, Vinyl Upholstery, Couch and Sofa Upholstery.

Complete restoration and re-upholstery of existing upholstery, Brand new furniture from our brochure can be upholstered in any fabric to suit styles desired by you thereby, creating a new look for their establishment. The repair service includes fixing issues related to the upholstered chairs, sofas & Sun Lounges Sometimes it is just the outer cover that looks worn out and tired. Recovering can bring your furniture back to life and provide a new level of comfort and appeal to the overall look.
